

Super Set™ non chloride accelerator

General Resource
Technology's
entire emphasis
is the marketing
of high
performance
concrete
admixtures
and fiber
reinforcement
systems for the
concrete industry.
This specific
emphasis allows
our organization
to be completely
responsive to the
needs of our
customers.
We are
committed to
quality, service,
and product
performance.

"Super Set is the only admixture capable of providing the performance required with our cold weather."

*Peter Fischer
President
Apple Valley Ready Mix
Minneapolis, MN*

"Super Set is cost effective and gives us the performance we can count on."

*Dennis Ahal
President
Ahal Contracting Co.,
St. Louis, MO*

"We suffered through contractor complaints regarding non-chloride accelerators for years until we started to use Super Set. This product performs and our contractors love it."

*Jim English
Quality Control Mgr.
Grand Rapids Gravel Co.
Grand Rapids, MI*

Commitment to Performance:

GRT is committed to manufacturing a full line of high performance concrete admixtures. Leading concrete producers, specifiers and contractors have chosen **GRT Super Set** as their choice for a non-chloride water reducing admixture which provides ultimate performance in the acceleration of set time and concrete strength development in cold weather.
